

Efficient Office Solutions is committed to helping in every way we can with the Coronavirus pandemic by protecting our customers, employees, vendors, partners and communities. Our showroom is now open, with our regular business hours. Our installation crews are back to delivering and installing office furniture at full capacity. Each of the installation team members are temperature checked every morning, and they will be wearing masks onsite at our facility and at the installation location. We are still offering curbside pickup for orders of all sizes.

We are requiring all customers and vendor representatives to wear masks upon entering our facility. Thank you so much for your cooperation!
